

GATILOE 10

\$38.18

Acid indigestion and gastritis are produced by excess hydrochloric acid in the stomach, from the fermentation of undigested foods or from a foodstuff transformed into acid. Ulcers are produced from excess acidity, bacteria (*Helicobacter pylori*) or somatization disorder. Changing to an alkaline diet and avoiding indigestion will help to improve this problem.

OTHER INGREDIENTS: MALTODEXTRINE, ACACIA GUM, CARBOXYMETHYLCELLULOSE, FRUCTOSE, NATURAL ORANGE FLAVORING, SUCRALOSE, NISIN AND NATAMYSIN (AS PRESERVATIVE)

How does it help the body?
